

Steven Eldam

Senior Vice President, Supply Chain and Recycling
EVRAZ North America

Steven Eldam joined EVRAZ in 2013 and was named Senior Vice President, Supply Chain and Recycling, in April 2019. In this role, Eldam manages the company's recycling network, as well as procurement, planning, logistics and transportation across EVRAZ North America.

Previously, Eldam served as Vice President, Product and Resource Management and Tubular Strategy, where he was responsible for the company's sales and operations planning and strategy of the tubular business.

Eldam came to EVRAZ North America from Booz & Company where he was a principal in its operations strategy practice, leading projects for automotive, industrial and chemical clients. He also spent seven years at General Motors in various manufacturing and engineering positions.

Eldam earned a MBA and a master's of science in mechanical engineering from the University of Michigan. He completed a bachelor's degree in mechanical engineering at the American University of Beirut.

About EVRAZ

EVRAZ North America (the "Company") is a wholly owned subsidiary of EVRAZ plc, one of the largest vertically integrated steel and mining businesses in the world. The Company is a leading North American producer of engineered steel products for rail, energy and industrial end markets. The Company has six production sites located in the USA (Portland, Oregon; Pueblo, Colorado) and Canada (Regina, Saskatchewan; Calgary, Camrose and Red Deer, Alberta).
