

Red-E-Prime, an in-line cleaned and primer coated tubing from Columbia Structural Tubing, is a proven cost saver for manufacturers and fabricators alike. **Red-E-Prime** is available in Red, Black, Grey, Blue, Green, and Brown on tubing throughout our complete size range from 2 1/2" square x 1/8" wall up to 10" square x 1/2" wall. Small and large samples are both available upon request.

Red-E-Prime tubing has a 0.5mil coating of electrostatically applied weldable primer that offers many advantages over traditional bare products including:

- Pre-Cleaned and Ready to Paint.
- Reduced Overall Material Costs.
- Extended Shelf-Life and Improved Outside Storage Performance.
- Weld Spatter Resistant.
- Superior Layout Marking and Readability.
- Reduction of solvent and cleaner usage.

Applications for **Red-E-Prime** tubing vary widely from Agricultural Products to Architectural or Structural uses. These include everything from farm implements, roll over protective cages, rail car framing and motor home chassis to beams, columns and light posts.

Customers using **Red-E-Prime** tubing have been able to attribute significant cost savings to the use of **Red-E-Prime** products. Savings are not only from the reduced cost of processing materials but from overall productivity gains as well.

If you have any questions or would like addition product support please contact our sales staff at (503) 737-1200 / (877) 737-1202 or by fax at (503) 737-1201.

Columbia Structural Tubing appreciates the opportunity to demonstrate the wide benefits **Red-E-Prime** tubing for your business and is looking forward to hearing from you soon.
